Historical

MORE than a quarter of a century ago, when the State of Virginia, now famed for its many excellent schools, could boast of but few preparatory schools, the Augusta Military Academy was founded to supply the needs of the young men in and around Augusta County. The Augusta Male Academy, as it was then known, was a success from its incipency, and from a day school with a few boarding students, it rapidly developed into a boarding school with representatives from adjoining states. Many of the alumni of the original Augusta Male Academy hold to-day enviable positions in the business and professional world, and their regard for, and loyalty to, the school have been largely instrumental in placing the Augusta Military Academy of to-day among the foremost schools of Virginia.

The Academy saw the dawn of life in a small brick building then situated in the grove of the Old Stone Church, about 300 yards from the present site. The increasing demands soon called for greater accommodations, and the grounds, comprising sixteen acres, were acquired, on which were erected dormitories and later a large academic hall. Year by year saw a constant increase, not only in better facilities, but also in greater and more extended patronage.

In 1906, the founder and owner, Chas. S. Roller, owing to ill health, retired from active service and Thos. J. Roller and Chas. S. Roller, Jr., assumed control. Under their régime, the Augusta Military Academy has kept pace with the times, both as to improvements and a higher educational standard.

To give the cadets every opportunity for mental and physical development, a modern academic hall and gymnasium has recently been constructed and a modern fireproof barracks is now in course of construction which will be completed in time for the coming session. The addition of this building, costing fifty thousand dollars, to the present plant will put the Augusta Military Academy in the forefront of the

AUGUSTA MILITARY ACADEMY

Southern preparatory schools. The Academy will still maintain a limited number, regardless of facilities, as our aim is not to be "the biggest but the best school in the South."

The enrolment of the past few years has been 150, with boys from twenty states, Canada, Mexico, and Central America.

With an enviable record behind it, the school looks forward to a greater future, ever striving for a higher degree of efficiency and ever keeping before it the knowledge that the school has in its hands in a large measure the molding of character, the success or failure of our young men, upon whom will rest the welfare of our great republic.

It is character that counts in nations as individuals.
Only in loyalty to the old can we serve the new;
only in understanding of the past can we interpret and
use the present; for history is not made but unfolded.

—BENJ. IDE WHEELER.

FACULTY AUGUSTA MILITARY ACADEMY

Object of the School

THE object of the school is to prepare boys for our universities, Virginia Military Institute, or other high schools of learning, or to fit them for immediate entrance upon the duties and responsibilities of life.

The Principals, with an experience of many years' teaching, assisted by gentlemen selected for their special qualifications in the departments to which they are assigned, feel that they are able to offer opportunities for a superior education at rates much less than those charged at other schools of like grade.

Instruction is given chiefly by text-books in connection with exegetical lectures, and contemplates a thorough acquaintance with, and a practical knowledge of, the various subjects taught. Principles are sought to be mastered, and habits of industry and accuracy sedulously inculcated.

Standard and Character

The Academy has, from its existence, enjoyed the reputation of high moral character. Should any pupil, after a fair trial, prove incorrigibly vicious and without a sense of honor, he will be promptly expelled, as his retention would be injurious to the school; but where the pupil is only self-willed, self-indulgent, and indolent—faults too often due to improper home training—the Principals will cheerfully and zealously undertake so to win the boy's confidence, foster his self-respect, and appeal to his better instincts and noble nature, that the comparatively "bad boy" may develop into a man with such capacities as will render him an honor to himself and a blessing to his race.

Method

The Augusta Military Academy is neither a loafing place nor a tread mill. The Principals are men of long experience, who have

AUGUSTA MILITARY ACADEMY

made teaching and the study of boys their life work. The rules they have adopted are the result of that experience and study. Unreasonable harshness breeds rebellion; careless laxity produces contempt. Reasonable rules and measures of discipline are used, but implicit obedience to them is required. While the cadets are always under supervision, no system of espionage is tolerated.

Every boy is put upon his honor and trusted as a gentleman until he proves himself unworthy of such treatment. In that case he is sent home. Every effort is made to inculcate high moral ideals into our boys, to teach them to despise "sham and cant," not to avoid just responsibility because it may entail punishment, nor to shirk duty because it may be irksome or unpleasant.

On Choosing a School

The first thing that should interest a parent in choosing a school is its location as to healthfulness. A cultured mind and a sickly body make a poor combination. A boy whose health is impaired at the training school is shut off from a college career and from a promise of success in any career. The Augusta Military Academy can promise as near a perfect security in the matter of health as can be offered anywhere.

The famous Shenandoah Valley is proverbially healthful. Every student is required to take daily exercise in drill. In addition, all kinds of outdoor sports are indulged in.

The gymnasium contains a large, circular running track, swimming-pool, bowling alley, etc.

The food furnished is well cooked, and chosen with special reference to wholesomeness. The Academy's farm supplies vegetables in season, beef, and an abundance of pure sweet milk. The school keeps from twelve to fifteen cows for milk alone.

The next important question is as to the moral atmosphere. Every effort is made to keep this pure. This school is not a reformatory, and bad boys will not be accepted.

BATTALION STAFF

AUGUSTA MILITARY ACADEMY

The teachers contribute very largely to the success of any school. It should suffice to say that every teacher is a graduate from a college of high standing, and possesses the faculty, not only to teach, but also to win the respect and admiration of the students.

Some Important Features

The Principals feel encouraged to ask the continued support of the public, because their institution, established forty years ago, has been steadily increasing in the fair name and reputation it has always enjoyed; because it is located in one of the most beautiful sections of the Shenandoah Valley, 1,300 feet above sea level, amid an intelligent and refined community, remote from the pernicious and demoralizing influences incident more or less to town or city; because away from barrooms, billiard rooms, tenpin alleys, the thronged streets, and other allurements that tempt the boy from his books, it is not so difficult for him to apply his mind and time to study and keep within the bounds of rectitude and morality; because the pupils of this school have entered without difficulty the Senior classes of even the University of Virginia; because its charges are less than those of any other Virginia school of like grade and the same educational advantages.

Our Teachers

The corps of teachers will consist of college men who will cultivate an intimate relation and establish a close juxtaposition with their pupils, both in the schoolroom and on the playground, who will toil with them in their studies, and will seek health and mental recreation with them in their play, who are ready to assume the rôle of being their exemplars, without fear of incurring by their own lives and conduct the contempt and scorn of those they would lead and instruct.

System of Work

Believing that study, like other work, is rendered more pleasant and profitable when systematically pursued, we endeavor to utilize

AUGUSTA MILITARY ACADEMY

the pupil's time and to further his interest by a methodical arrangement of all his hours. The call to work and duty must be observed with the same promptness and alacrity as is the dismissal for play and recreation.

Ten hours, properly divided, out of every twenty-four, are devoted to zealous, earnest labor in the schoolroom. The pupils prepare each day's lessons with the assistance of the teachers, and are thus encouraged and enabled to make satisfactory recitations, and in this way the boy of ordinary capacity, if he be studious and industrious, may outstrip those of even the more brilliant talents.

The Kind of Boys We Want

We desire to welcome boys who are imbued with manly hopes and ambitions. Augusta Military Academy is primarily a school for gentlemen's sons. We want only boys who will apply themselves studiously during work hours; who will play heartily during recreation hours; boys who will at all times be high-toned, courteous gentlemen. With such material it is a teacher's greatest pleasure to reach the boys and instill ideals and principles that may guide them through life. The teachers enter into all the interests of the boys and seek to develop the very best that is in them.

Self-Government

Self-government is the best of all governments in the junior republics, as well as in the great ones. So far as possible, then, we try to foster this expression of the principles that we inculcate. We believe the American boys need a stronger and more refined system of self-government than other boys. Often they are more indulged at home, and, as a whole, are rather less tractable.

Hence we have adopted the military system, with its steady regularity and impartiality, its wide room for gradation of responsibilities, and its traditions of fidelity to honor. We hope to trace its

AUGUSTA MILITARY ACADEMY

permanent influence in the after careers of our cadets, and to prove that an *esprit de corps* in a school life is of priceless value. In maintaining the hold over boys, we place the greatest dependence upon the close touch and cordial relations between teacher and pupil; the master insisting on a firm, dignified, and systematic classroom discipline, the pupil showing proper obedience and deference.

Honor System

Our transactions with the boys are based on the honor system, and when we are confronted with the reality that a boy has broken his trust, and that his disposition is to rebel against the more honorable way, we are compelled to dismiss him, though not until he has been given a fair test.

Home Life

We strictly insist that the home life of the Academy is one of our best and leading features.

This is hardly possible in schools of such large numbers, where individual attention and close relationship are practically out of the question, and in such cases a boy soon feels that he is simply "one among many."

With us, the teachers are able to cultivate an intimate association and acquaintance with each boy, and he is made to feel that a personal interest is taken in his welfare and progress.

The teachers take their meals with the cadets, which fact should be sufficient evidence that all are well provided for.

Health

The health of the boys is one of our first considerations. Every precaution is taken to prevent carelessness and indiscretion in their dress, from which sickness often results. Plenty of exercise in the open air, excellent water, wholesome food, and systematic work, will produce wonderful results with any boy.

AUGUSTA MILITARY ACADEMY

We are situated in one of the most healthful sections of the famous Shenandoah Valley, where malaria and chills and fever are unknown. The Academy has its own water system, and pure, fresh water is convenient to all the rooms.

In case of sickness the cadet will receive the prompt attention of the school physician, and parents may rest assured that they will be promptly notified as to the welfare and condition of their son.

Our cadets are not confined to a city block or street, but have the advantage of 120 acres, which afford ample space for all their sports.

Fort Defiance, Virginia

No institution of learning has a more desirable location than this. It is pleasantly situated, 1,300 feet above sea level, in one of the most beautiful and healthful sections of the Valley of Virginia, remote from any town, thus affording to the parents a guarantee that their son is not exposed to the pernicious influences which are necessarily more or less incident to all towns and cities. It is easy of access, being within one-third of a mile from Fort Defiance depot, on the Valley Railroad, which has three trains daily, both north and south, and immediately on the Valley turnpike, nine (9) miles from Staunton.

A telephone office at the Academy gives us speedy communication with our patrons, should occasion demand it. The neighborhood is one of the best in the State, and our cadets have the advantage of unusually refined and intelligent associations.

Admission

No special examination is required, and pupils as young as eleven years of age are received into the Academy.

Boys are admitted at any time during the school year, but it is urgently desired that they be entered at the opening of the session,

OLD STONE CHURCH

AUGUSTA MILITARY ACADEMY

in order that they may begin work with the regular classes. Too often boys are allowed to enter school after the work has begun, and they find it discouraging to take up the classes they would ordinarily suit. We would request our patrons to bear this in mind, for neither school nor boy can meet the requirements when a month or more of valuable time has been lost.

The school is by no means a reformatory and a boy of confirmed bad habits can not remain in the school, and we would prefer no boy to enter who does not intend to be a gentleman.

A Word to Parents

Sending your boy off to school is a matter of grave importance, as well as one of apprehension. In the first instance, the average boy when left to his own resources will gradually assert that element of manhood which is so needful in taking care of himself and which commands the respect and admiration of his companions. At home a boy may have nearly all the admirable characteristics, yet there is lacking just some one thing which prevents his being an ideal, manly man—and that one thing is the knowledge of being a man among men. He must get out from under the home ties to acquire this gift, and it comes very near being a divine gift. Learning to think for himself, to act for himself, and being true to himself, are three great lessons that he must and will learn. We assume that every boy is a gentleman before he reaches us, and we only endeavor to impress upon him each day those principles and teachings which he began to learn from childhood. We strive to return your boy to you just as honest and pure as when he came to us. School life affords the opportunity to a boy to make a practical test of the many good lessons learned at home, and it also lays bare the folly of "sham and cant"; our men of to-day are only boys grown up, and what they are and do can be traced back to what they were and did in school life.

Our rules are based upon long experience and knowledge of boys. We know they are just and for the boy's best interest. We solicit

AUGUSTA MILITARY ACADEMY

and expect active coöperation of every parent to secure the desired results. Do not write your boy permission to do anything or to go anywhere without first advising with us, as we have experienced some trouble in the past by parents granting permission when the school authorities deem it best to refuse. Consider this fact—we are “on the grounds” and have one hundred and fifty boys to handle, while you are absent and are considering the case of only one boy, your son. We try to act with absolute impartiality, but we find it difficult to do this when parents “assume the responsibility.”

We do not seek a promiscuous patronage, and we repeat that we do not conduct a reform school in any sense of the word. If your boy is unwilling to give obedience to our regulations and to deport himself in an honorable manner, we do not desire him. Of course, we are broad enough to expect a certain amount of innocent mischief and breach of regulations which do not reflect upon the character and standing of the boy. He is punished for these offenses and takes his punishment like a man.

Your son will be exposed here to some temptations—learning to smoke, for instance. He would have even greater temptations in the city and in larger schools, where there can not be exercised the same individual attention as in the smaller schools. If your boy wants to learn to smoke he will find the way regardless of rules and precepts. The same law follows in case of other habits and vices. The average boy who “goes wrong” has a dozen reasons why he should not and only one why he should, and that may be either the desire or bad companions. The latter are never necessary to any boy’s happiness, so most of the downfalls can be traced back to the boy’s own election.

We do not promise to do the impossible, but we do assure the parents that their son will have every means known to us that his life here may be one of profit intellectually, morally, and physically.

AUGUSTA MILITARY ACADEMY

Moral and Religious Influences

The Academy is situated within two hundred yards of the Old Augusta Church, in which religious services are held every Sabbath, and which students are required to attend unless excused on account of sickness. Rev. J. N. Van Devanter conducts classes in Biblical history and gives such religious instruction as may be deemed proper in a school that is strictly non-sectarian. But while non-sectarian in the matter of creed, we use every means in our power to teach high moral and religious ideals. We believe a strong character to be the first requisite to a well-rounded manhood, and to develop this is our first aim. There is thrown around the cadets every possible influence which will make for courage, honesty, truthfulness, a sense of honor, and a reverence for sacred things.

A boy who proves to be of bad moral influence will not be retained in the school, for we do not believe that we have the right to risk harming a hundred good boys in our efforts to save one bad one.

Y. M. C. A.

A Young Men’s Christian Association exists among the cadets, with eighty per cent of the school as members. Religious meetings are held regularly, and much enthusiasm is evinced throughout the session. The Association is in the hands of the older and more experienced cadets, though the teachers are members and attend the meetings.

Barracks

The opening of session 1915-’16 will see a group of modern, fire-proof buildings that will compare favorably with any in the South. The barracks now in course of construction will be built of steel and concrete, the only wood being the doors and windows. The cadets’ quarters will be ample in size, neat and comfortable, yet thoroughly

AUGUSTA MILITARY ACADEMY

military and sanitary. Only two cadets will occupy a room and each cadet will have his individual table, closet, shelf, light, and bed. Every room opens out on a porch, as the barracks are arranged in a quadrangle, and every room has perfect ventilation. A separate wing of the barracks is designed especially for the younger boys, who will be under the care of two instructors, thus avoiding the older classes as much as possible.

The extensiveness of the new barracks will permit of a post-office, band-room, laundry-lockers, trunk-room, tailor and shoe shop, barber shop, pool room, and various other conveniences necessary in a well-regulated military school.

All the buildings are heated by the most improved system from a central heating plant, and there is an abundance of pure spring water which is fed by gravity to every part of the buildings. Besides having its own electric plant, the Academy is connected with a local company, which insures constant service, and we frankly believe that few city schools can boast of more modern conveniences and appliances, and we have the advantage of a country location with all city improvements. An automobile transfer line and six daily trains give us almost hourly connections with Staunton and other points.

Grounds

The Academy owns 120 acres, on which there are the farm and a beautiful athletic field and drill ground. Every facility for tennis, baseball, and football is afforded, as we hope to develop the body as well as the mind.

During the past year the school has spent more than five thousand dollars on the parade ground and athletic field with this end in view, that all military manœuvres with three companies of cadets could be performed on an absolutely level plot of ground. The athletic field has a one per cent grade, which is sufficient for drainage, and yet it is

BATTALION OFFICERS

AUGUSTA MILITARY ACADEMY

apparently perfectly level. Also four tennis courts are located on this field, and a game of baseball and a tennis match on each court can be played at the same time without interference.

Gymnasium and Study Hall

The building is an unique one of its kind, containing not only elaborately equipped classrooms, but also, in the third story, a splendid gymnasium and dancing hall, and on the lowest floor a swimming-pool, shower-baths, a hundred lockers, and a bowling-alley.

Around and above the gymnasium floor is the running track (22 laps to the mile), so perfect in design and construction as to be a veritable monument to the builders' art.

The gymnasium itself has been pronounced by competent judges to be the best in the State. The floor is of No. 1 maple, the very finest hardwood obtainable.

The entire interior of the building is beautifully finished in yellow pine carefully selected and ordered from various Southern states, and abundant light is furnished by the most modern acetylene gas and electric equipment.

The Fare

The Academy has its own farm of one hundred acres, where vegetables and fruit are grown and stock is kept for the school use. In fact, it may be said that the food, the surroundings, the regular, cheerful and outdoor life at the school soon make the delicate boy robust and strong.

The School Bank

The Academy conducts a bank which is controlled by Colonel Roller and maintained entirely for the convenience of the cadets. Here all checks are cashed, transportation purchased, etc. Cadets de-

AUGUSTA MILITARY ACADEMY

posit their money at any time, and thus loss and foolish spending are obviated in a great measure. Banking hours are held three times a week, and checks are used which are good only at the school bank. This banking system has largely solved the question of wasting money, as parents can not always know whether an article is necessary or not, while a deposit in the school bank puts us in charge of the situation.

Discipline

In order to secure efficient and rapid progress in study, the most thorough discipline will be maintained. This is mainly secured by cultivating the pupil's self-respect, winning his esteem, appealing to a nice sense of honor, that we endeavor to engender in his mind, and by constantly keeping before him the imperative necessity of maintaining an honorable standing in class and a correct and gentlemanly deportment both in and out of school.

Sport and recreation at proper hours are encouraged by the instructors, but industrious and energetic application to books is insisted upon as a paramount duty and the chief object of a cadet's life. When persuasion, encouragement, appeals, and abridgment of play hours prove ineffectual to secure the proper performance of duty, the pupil will be dismissed from the school, in order to prevent his example being prejudicial to his associates.

Incentives to Study

Diligence is secured by encouragement and commendation, and, when these fail, resort is had to demerits and penalties. A system of strict and impartial marking at recitations is practiced, and the names of those whose class standing is satisfactory are read out monthly in open school. Reports candidly exhibiting the progress and conduct of students are submitted monthly to the parent or guardian.

BATTALION ON MARCH

AUGUSTA MILITARY ACADEMY

Literary Society

A Literary Society, for the practice of debate, elocution and declamation, exists among the students, and its exercises have been conducted greatly to the improvement of its members. Its meetings are held Saturday nights under the supervision of Major Roller.

Scholarships

(University of Virginia)

(1) The University of Virginia, under specified conditions, offers a scholarship exempting the recipient, if he be a Virginian, from the payment of matriculation fees and, if he be from any other state, from the payment of tuition fees in the academic department of the University.

Cadets desiring to compete for the above scholarship must be in the Senior Classes, and they will receive special instructions relative to the examinations submitted to us by the University.

The cadet receiving the highest average on the examinations shall receive the scholarship.

(Virginia Military Institute)

(2) A scholarship, valued at \$75.00, is offered by the Virginia Military Institute to the cadet considered to be the most worthy of it by the Principals.

(Washington and Lee University)

(3) To that member of the Senior Class of the Academy who shall receive the highest average in no fewer than three Senior and one Intermediate study (average not less than 90 per cent) shall be awarded the scholarship offered by the Washington and Lee University, which entitles the recipient to free instruction in any branch of the academic department.

AUGUSTA MILITARY ACADEMY

(Hampden-Sidney College)

(4) To that member of the Senior Class of the Academy who shall receive the highest average in no fewer than three Senior and one Intermediate study (average not less than 90 per cent) shall be awarded the scholarship offered by Hampden-Sidney College, which entitles the recipient to free instruction in any branch of the academic department.

(Davis-Elkins College)

(5) To that member of the Senior Class of the Academy who shall receive the highest average in no fewer than three Senior and one Intermediate study, shall be awarded the Scholarship offered by Davis-Elkins College, Elkins, W. Va., which entitles the recipient to free instruction in any branch of the academic department.

(Davidson College)

(6) This scholarship is worth \$75.00 to the recipient, who must be a member of the Senior Class.

Reports

A candid report of each cadet, stating the progress, conduct, number of demerits, etc., will be sent to his parents every month. This report is not simply a matter of form, and should not be so regarded by the parent. If your boy is not proving satisfactory, write to him and to us, especially to him, for we know when a report is satisfactory or not, and, perhaps, have used every effort with your boy; therefore, let him know it if you are disappointed, as well as let him know it if you are pleased with his work.

Too often parents seemingly lose interest in the education of their children and leave it all to the school. This is a mistake, and we particularly desire the parents to keep in close touch with the advancement and work of their sons.

CADET BAND

AUGUSTA MILITARY ACADEMY

Library

The cadets have constant access to a library equipped with all the necessary books for reference in their work, as well as affording an abundant supply of good reading.

We consider this an essential feature to any school, for if the proper literature is always at hand, and boys are encouraged to read good books, their taste will be cultivated above the class of cheap and injurious novels for which so often young minds evince a fondness.

A number of papers and magazines will always be found in the reading room, where the cadets are allowed to assemble under certain restrictions.

The Bayonet

This is a monthly magazine published solely by the cadets and devoted entirely to the interests of the school.

The results of this publication are most beneficial, as it encourages those of literary inclination and inspires others to an effort that otherwise they would not make.

Another important feature of *The Bayonet* is that it keeps the alumni in closer touch with the progress of the Academy.

Sports

Life in school is not simply a preparation for something to come later. It is life in a very intense form. No greater mistake can be made than to suppose that any vigorous, forceful, real boy can be best developed by making of him a bookworm for a few years, without giving him the chance to satisfy his perfectly normal and legitimate appetite for pleasure. Other things being equal, that school which does most for a boy's pleasure secures the best hold upon his esteem and affections and thus is able to develop him most advantageously. The Principals of Augusta Military Academy have pro-

AUGUSTA MILITARY ACADEMY

vided for the cadets facilities for almost every kind of athletic exercise. Members of the faculty, under the supervision of Major Roller, have charge of the football, basket-ball, baseball and track teams. In addition, cadets have access to a tennis court, bowling-alley, and swimming-pool.

Our motto is "A Sound Mind in a Sound Body," but no cadet, however, who is notably deficient in his school work can be a member of any of the athletic teams

Holidays

The Academy has always been opposed to promiscuous or extensive holidays, and we would urgently request our patrons not to infringe upon this rule. A holiday of two weeks is granted for the Christmas vacation and also one day at Thanksgiving and one day at Easter. The Principals feel that they are held responsible for the progress and advancement of the boys entrusted to their care, and they fully realize the *distraction* of a few days' vacation, which means not only absence from duties but a general cessation of all military and academic regulations. Furthermore we have a hundred and fifty boys to deal with, and what is granted to one should be granted to all, as we endeavor to treat all boys alike. Matters are frequently made very difficult for us when patrons insist upon our granting a special furlough in their case, and, therefore, we would advise their writing to the Principals before giving their permission to their sons for any "leave of absence."

Medical Attention

The school has its own infirmary, which is in the charge of a trained nurse, and any cadet who may be indisposed is at once sent to the infirmary either for medicine or treatment. The school physician visits the infirmary each day, and a close watch is kept over all the cadets who may be sick. The physician makes a physical examination

COMPANY "A"

AUGUSTA MILITARY ACADEMY

of every cadet on arrival, and a complete chart of every boy is kept and held for comparison at the close of the session.

A small charge is made at the infirmary to cover medicines, dressings, etc., but the school physician renders his statements independent of the school. We know the physician's charges are reasonable, and for this reason we have not established a fixed medical fee, as now many boys go through the entire year without any medical charges, whereas, in case of such a fixed charge, boys would be tempted to imagine themselves ill because they would feel that "they were entitled to a certain amount of sickness." We have observed carefully both customs and have adopted the present system.

Enrolment 1914-'15

We had boys during the past session from twenty states, Central America and Mexico, many of whom will return the ensuing session; therefore, we would appreciate and advise prompt correspondence, as early enrolment is helpful, not only to the school, but also to the boy.

Limited Numbers

The school is limited in number, as we believe it to be a physical impossibility to give a large number of young boys the proper supervision and personal attention, the lack of which is exceedingly disastrous.

Graduation Requirements

To meet the demands of the various universities that require a diploma of graduation before admitting a candidate, we have recently established a course leading to graduation. This course comprises the following subjects:

Military Department

RACTICAL instruction in military evolution is given by members of the faculty educated at the Virginia Military Institute.

While the exercises of this department are thoroughly taught, they are not allowed to encroach upon the hours to be devoted to school and study, nor to assume such prominence as to lessen a proper attention due to the principal object of the school.

The cadet officers of the battalion are appointed by the Principals and the Commandant, and are selected from those cadets who are most studious, most soldier-like in the performance of their duties, and most exemplary in their general deportment.

The Advantages of Military Training

It is not an uncommon idea that a Military School is designed to fit young boys for army service. To be plain and frank, this aim is one of least importance, and, in fact, since the founding of the school, but few boys have ever enlisted in the regular service. We, however, endeavor to prepare our boys for the Government Academies, if desired, since graduation from one of these means a high position in the army or navy.

A true conception of a Military School can scarcely be obtained from reading a catalogue or even from hearing its merits praised by those who have had actual experience.

There is no phase of school life that does not come under the influence of military training. To learn prompt obedience, to be systematic, to be neat, to be respectful to his superior officers, to

COMPANY "B"

AUGUSTA MILITARY ACADEMY

acquire greater self-reliance, are some of the chief qualities that a military training demands of a boy, and these habits are learned, not only for school, but also for life, and the beneficial results may be seen in every profession of the age.

Who is there that does not admire broad shoulders, the light, graceful carriage, the well-expanded chest, and the erect form? Setting up exercises, daily drills in the manual of arms, and plenty of exercise in the open air will produce wonderful results, and, with no interference with the school work, the end in view is readily obtained. Lastly, a boy with military training is imbued with the principle that "nothing, in the scale of reason, is impossible," and, consequently, he takes hold of life with the assurance that success is his if he only persists, and this is half the race—self-reliance and persistence.

Uniforms

The uniforms are made of excellent cloth by a leading Military Supply House, and they should be considered in the light of economy, as they wear better and present a more handsome appearance than the ordinary citizen's clothes, because they are strictly tailor-made and of the best quality.

The cloth is obtained from the celebrated Charlottesville Woolen Mills.

There is no regulation in regard to Military overcoats, although a large per cent of the cadets order them, since they are very warm and last several years.

SCHOOL FORMATION

Battalion Organization

HE cadets are organized into a battalion of two companies under the direct supervision of the Commandant for instruction in infantry tactics and in military police and discipline. The officers and noncommissioned officers are selected from those cadets who have been most studious and soldier-like in the performance of their duties and most exemplary in their general deportment.

Course of Study

A little learning is a dangerous thing ;
Drink deep, or taste not the Pierian spring.

—POPE.

Our aim is to form classes to suit the boys, we have no regular course which a boy must pursue whether he is prepared or not. Should a student enter a class and find it too difficult, or if, in our judgment, he has been classified too high, we place him in one of lower grade. This is of decided benefit to the backward and those who have not had proper preparation, while those students of great ambition are not held back, as there is always a class above them which they may enter. Our system is entirely elective, and a cadet may pursue any of the following subjects, of which there must be *five*:

- 1—English (including Literature, Composition and Orthography)
 - 2—Ancient and Modern History
 - 3—Latin
 - 4—French
 - 5—Spanish
 - 6—German
 - 7—Mathematics
 - 8—Physics and Chemistry
 - 9—Physical Geography
 - 10—Penmanship (Compulsory)
 - 11—Music
 - 12—Military Tactics
- } Not considered as regular studies

AUGUSTA MILITARY ACADEMY

English

It is a frequent complaint that in our high schools too much attention is paid to the study of Ancient Languages and too little to the English, and that pupils are too often sent from their doors well drilled in Latin and Greek and having an indifferent acquaintance with the mother tongue.

Here English is made the principal study, and is carried through the entire course. Outside reading is assigned as a part of the regular work, for too often boys leave the preparatory school with little or no knowledge of the English Classics. Aside from the practical benefits of this course, the boy becomes familiar with many quotations and extracts that may be heard in the society of educated and well-informed people, and, furthermore, he is able to converse intelligently on the subject of English authors.

Again, good reading broadens the field of thought, stimulates the desire to emulate successful men, arouses the latent force to greater activity, and furnishes the mind with "material for reflection."

Realizing fully how a boy is handicapped who uses "bad grammar," no effort is spared to correct this, and at all times, whether in the schoolroom or on the playground, the teachers, in a kindly manner, call the boy's attention to his incorrect speech, and by this method of "keeping continually at it," the boy soon becomes familiar with the proper forms of expression.

Orthography

Believing that no branch of education is more necessary than correct spelling, no pupil is excused from the study of orthography, and daily recitations in it are required from the entire school, divided into classes with reference to stage of advancement.

FOOTBALL TEAM

AUGUSTA MILITARY ACADEMY

Penmanship

Special attention will be given to this subject, and it will be the duty of the instructor to teach every pupil to write a fair and legible hand.

Every boy in the school is required to take penmanship.

Ancient Languages

In this department a perfect knowledge of forms is insisted upon, and pupils are thoroughly grounded in the inflections. They are then instructed in syntax, and translate the authors in the order of their difficulty. Decided prominence is given to rendering English into Latin, and daily exercises are required.

Modern Languages

We encourage our boys to pursue one or more of the Modern Languages. Our aim is to give them a good reading knowledge of authors of moderate difficulty and the common idiomatic expressions, as well as to ground thoroughly the fundamental principles. Thus equipped, our boys find no particular effort necessary to pass the entrance examinations of our colleges and universities.

Mathematics

Realizing the importance of this branch of study, no student will be excused from taking some form of this subject. We endeavor to prepare our boys to enter all the leading colleges, as well as to equip them with a good, practical, working knowledge of arithmetic and algebra.

History

We consider history an important item of a liberal education, and, while requiring this subject in the lower classes, we heartily encourage

AUGUSTA MILITARY ACADEMY

a more advanced course of history for the Senior work. It lays the foundation for a more careful pursuit of facts in after years.

Natural Science

The course is necessarily a limited one, as no previous preparation is contemplated for entrance upon these studies in our colleges and universities, and both time and sufficient apparatus are wanting in most of our preparatory schools for any great or decided advancement in this branch of learning. A laboratory equipped with apparatus and reagents sufficient to illustrate an academic course enables us to give considerable practical instruction in physics and chemistry.

Music

Owing to the constant demand for instruction in music, arrangements will be made whereby cadets will be able to receive instruction on the piano, guitar, mandolin and violin.

This course is extra, as will be seen in school expenses. Rates will be sent on application.

Examinations

Two general examinations, which all the students are required to stand, are held during the session in each class—one at the close of each term. These examinations are conducted principally in writing, and to students whose answers aggregate eighty-five per cent of the questions propounded a certificate of distinction will be publicly awarded at the closing exercises of the school.

Note.—Graduation requirements will be found on page 23.

Academic Year 1915-'16

HIS session will commence Wednesday, the 6th day of October, 1915, and will close the 8th day of the following June, 1916.

Pupils are received at any time, and after the first month are charged pro rata from day of entrance. Cadets leaving before the close of the session will be charged *full rates*, unless by previous special arrangements, or from serious and protracted sickness. This rule is strictly adhered to.

Expenses

School bill (board, furnished room, heat, lights, laundry, use of arms, and instruction in all branches taught in the school)\$360.00
 Books and stationery, according to advancement.....\$10.00 to 15.00
 Uniforms, equipment, etc. (approximated)..... 65.00
 (N. B. A portion of the uniforms will suffice for two or more years. The uniform bill is largely controlled by the care the cadets take of their clothing.)

Pew rent 1.00
 Music Rates will be furnished on application.

The school bill is payable in advance or, if preferred, \$200.00 at entrance and \$160.00 on the 4th of February, 1916. A deposit of \$80.00 to cover uniforms, caps, shirts, books, and stationery must be made on entrance.

Total deposit required on entrance is \$280.00.

The school bill charges from January 4th to close of session are \$250.00. The uniform bill for the same time is about \$50.00. This charge of course depends upon the needs of the cadet.

Make all checks payable to Augusta Military Academy.

Nearly all the cadets subscribe to the following student organizations: Y. M. C. A., \$1.00; school paper, \$1.00; Athletic Association, \$3.00. This fee entitles each member to free admission to all contests during the year and also to free use of all athletic supplies.

Any excess remaining from the deposit for uniforms and books will be refunded at close of session.

Remarks

INJURY to property of the Academy by a cadet is repaired at his expense, but the cost of repairs is assessed equally upon the members of the corps if the perpetrator be unknown.

The arms used by the cadets are Springfield rifles of modern pattern.

Parents should send their sons to school with teeth in good order that dentists may not be visited in term time.

Frequently cadets are allowed too much money for useless expenditure. Fifty cents a week is the greatest amount any cadet should spend for unnecessary things, and any allowance above that tends to inculcate extravagance and self-indulgence. See "School Bank" elsewhere.

No cadet will be retained in the Academy whose influence over his associates is believed to be bad, and we desire no one to enter who does not intend to be a gentleman, and who will be an unfit associate for good boys.

No "hazing" is allowed, as it is condemned by the sentiment and tradition of the school, and each cadet is pledged to this on entrance.

Cadets are free to write home at any time. If they make complaint, or report any wrong practiced by others, we particularly desire parents to inform us at once, that the evil may be remedied, if any exists.

The Academy ranks high in regard to the honor system. All examinations, class recitations, permits, etc., are considered in the light of a boy's honor, and the prevailing sentiment is to treat with scorn a boy who will not tell the truth. This honor system is controlled to a large extent by the cadets and not by the school authorities.

The teachers are always in charge of the dining-hall, and constant attention is paid to etiquette at the tables, as, frequently, boys in large numbers are apt to become negligent.

The Academy requests that no "boxes" be sent from home except during the holidays. The cadets are supplied with an abundance of

AUGUSTA MILITARY ACADEMY

well-prepared food, and "boxes" are not only unnecessary, but also detrimental to the physical condition of the boy.

Each room is inspected several times daily by the officers in charge in order that habits of neatness and system may be inculcated.

Should a case arise when it becomes necessary to dismiss a cadet for breach of regulations and conduct, no part of his tuition fees will be refunded. This is not the case, however, when a cadet is allowed to withdraw on account of sickness.

Experience of many years and observation have proven to us that a preparatory school, where the average age is sixteen, or seventeen, necessarily should be limited in numbers. Regardless of facilities, that personal attention and safe influence can not be assured when so many young boys are brought together under one roof. We now have enrolled for the ensuing session a large per cent of last year's cadets and quite a number of new boys, therefore, we would appreciate early correspondence.

We do not claim to be the cheapest school, nor have we exorbitant fees. A school that offers to take your son for a very cheap figure must necessarily give in proportion; for experienced and college-bred men demand high salaries, and conveniences and equipment require a large expenditure of funds, which a school with such low rates can not afford.

Regulations

REGULATIONS covering all points of discipline and conduct are posted in each room, and, from time to time, as circumstances may require, new orders are issued.

Following are some of the things from which cadets of the Augusta Military Academy are required to abstain:

Leaving school premises except as permitted by the regulations.

The use of intoxicants or having them in possession. Any cadet violating this rule will be dismissed at once.

Gambling and betting.

The use of profane or obscene language.

The reading or possession of improper literature.

Contracting debts without permission.

Injury to property, no matter whose.

Possession or use of cards, dice, etc.

Cigarette smoking. Cadets will be allowed to smoke a pipe at certain hours, if they have the parents' permission.

On the second offense of cigarette smoking, a cadet will be expelled.

The possession of firearms.

Cadet quarters are subject to inspection at all times, and the orderly is responsible for their condition and contents.

Cadets are not only required to abstain from all vicious, immoral, and irregular conduct, but it is enjoined upon them to conduct themselves upon every occasion with the propriety and decorum which characterize the society of gentlemen.

Mr. Thomas J. Roller is a distinguished graduate in the school of Latin of this University. I regard him as a first-class Latinist. After graduating in the school, he pursued the course in Post-Graduate Latin with great success. He is a young gentleman of fine character, of excellent abilities and well qualified to teach Latin in any position.

Of Mr. Roller, who completed my Spanish Course, it gives me pleasure to state that I have found him to be a diligent student and a gentleman.

I believe Mr. Roller will succeed in whatever he undertakes. Any association will be benefited by his presence.

I am glad to be able to speak in terms of commendation and praise of Mr. C. S. Roller, Jr., a distinguished graduate of this school, both as a student under me and as a man.

Mr. Roller was under my guidance and instruction for two years of his course here, and I had ample opportunity of forming what I believe is a correct judgment about his intellectual and personal qualities, and I considered him then, and do now consider him, a man of good, strong sense, of a well disciplined mind, of high moral perception and force, and of firm and steady will. His standing here as a student is indicative of his scholarship, his position among his fellow-cadets as a leader in the various directions of undergraduate activities testifies to the possession of high qualities of mind and spirit, and mark him as one well fitted to discharge the duties he has taken upon himself, to be the director and guide and instructor of youth.

Very respectfully,
(Signed) HUNTER PENDLETON,
Professor of Chemistry.

Mr. T. J. Roller completed successfully the M. A. German Course under Professor Perkins at this institution, some years ago, and, returning to the

AUGUSTA MILITARY ACADEMY

University, pursued a post-graduate course in Middle High and Early Modern German under me for one year. In this course he evinced maturity of purpose, intelligence, and industry, finishing the three examinations with credit to himself, and greatly enlarging his knowledge of comparative German Grammar, the history of the language, and literary monuments of the Middle Ages.

Mr. Roller is thus exceptionally well qualified to teach German, having had the unusual advantage of several full courses under different professors at our leading Southern University, and of graduate work of his own choice in the subject last year.

To Whom It May Concern:

Mr. Chas. S. Roller, Jr., was graduated with distinction from the Virginia Military Institute in June, 1901. He was offered the position of Assistant Professor of Mathematics and Tactical Officer in the Institute, which he declined. He has taught continually since he graduated. I regard him as unusually well qualified for the duties of instructor and Military Commandant of a preparatory school. His make-up is such that he gets excellent results in whatever he may undertake to do.

Very respectfully,

To Whom It May Concern:

By reason of an acquaintance during the last seven years with Captain Charles S. Roller, Jr., I feel competent to say that his record as a cadet at the Virginia Military Institute, where he was graduated with distinction in 1901, his successful experience since that time as Commandant of Augusta Military Academy, and his general aptitude and genuine enthusiasm in training those under his care, qualify him particularly well for the position he now fills.

He is a Christian gentleman, with the power to a marked degree for exerting the best sort of influence and for winning the true regard and respect of those in any way associated with him.

Very respectfully,

(Captain) H. E. HYATT,
Post Adjutant, V. M. I.

AUGUSTA MILITARY ACADEMY

What Patrons and Others Say of the Augusta Military Academy

From Rev. J. N. Van Devanter, Pastor of Augusta Stone Church, Virginia.
Mr. Charles S. Roller.

My Dear Sir:—It is with pleasure that I take advantage of this opportunity to bear testimony to the merits of your school.

I have noticed it carefully for eleven years and can say without hesitation that it is the best school of its nature that I know of. Every pains is taken with the boys and young men to make their progress as rapid and thorough as possible.

It seems to me as safe a place as boys can be in, away from home, for the Academy is free from evil surroundings, and is situated in the midst of as good society as can be.

For discipline and study, I know of no place which can afford the same advantages. From what I have seen of the school I can recommend it to all who have boys to educate.

Yours truly,

J. N. VAN DEVANTER.

From Hon. W. H. Landes, Mayor of the City of Staunton, Virginia, May 31, 1905.

From my intimate acquaintance with Professor Charles S. Roller, and from my familiarity with the character of work which he has done in the past, and is still doing at his school, Augusta Military Academy, at Fort Defiance, Virginia, I have no hesitation in saying that it is one of the very best schools of its kind for the education of young men in Virginia.

The location of the school is an ideal one, situated as it is about nine miles from the City of Staunton, on the Baltimore and Ohio Railroad, in the great Shenandoah Valley, removed from the vices and temptations incident to city schools, and in a neighborhood known for its hospitality and high social standing of its people.

Professor Roller is a born teacher, and disciplinarian without a superior. He has the rare faculty of at once winning the confidence and esteem of his boys, and of making them feel that success in school as well as in after-life, depends upon their individuality.

With the opening of the session 1905-06, the school enters upon a new era by the addition of Professors Thomas J. and Charles S. Roller, Jr., as co-principals. These young gentlemen are sons of the founder of the school and inherit the native qualifications of their father as teachers. They were educated at the University of Virginia and the Virginia Military Institute, respectively, and have had three or four years' experience as teachers.

Lexington, Va., April 15, 1905.

It gives me pleasure to endorse the Augusta Military Academy. I regard it as one of the best fitting schools in Virginia. We have had a number of young men from this school, and they have been carefully trained. The Academy is worthy of the highest confidence of all who appreciate sound and honest work.

For the past ten or twelve years the Augusta Military Academy, of Fort Defiance, Va., has been sending us students. The records of these young men, as set forth on our books, show that they have been well prepared and that the training given by the school has been thorough and sound. Several of them have graduated here with distinction. In my opinion, the school is worthy of patronage.

Sirs:—It has been my good fortune to have known of your Academy for a great many years; to have seen it in active operation, and to have had under my instruction at this institution young men prepared by you. I have sent a number of young men to you in the years that are past, and shall continue to do so in the years that are to come. I can most cordially commend your work and shall be pleased to have you make use of this testimonial as you may deem proper.

My Dear Sir:—Permit me, if you please, to add my word of commendation for your splendid school, to many letters of the kind which you have no doubt received from your pleased patrons.

The improvement shown by my son has been marked, and I have recommended your school to several friends who have sons to educate.

There is something in the military system which brings out the best qualities of a boy or young man—and I have found this to be especially true of Augusta Military Academy.

I selected your school for my son after very careful consideration of the merits of several of the best I could learn of, and I am entirely satisfied with the result.

Wishing you all success, I remain,

Yours very truly,

My Dear Sir:—It affords me great pleasure to have this opportunity of testifying to the merits of your school, both as to system of education and military training, and to express my satisfaction at my two sons' progress. I feel that two years of my boys' usefulness were wasted in the public schools.

With utmost confidence and respect, I shall continue them in your care during the succeeding year.

Wishing you continued success, I am,

Very gratefully yours,

My Dear Sir:—It is with great pleasure that I acknowledge my appreciation of the faithfulness and the efficient manner in which you have handled my son,

AUGUSTA MILITARY ACADEMY

Charles, since he has been at your school. I was much perplexed about a place to send him until, hearing of your school through a friend of mine, I decided that it was the place I wanted him to go, and upon personal investigation, I felt even better satisfied than I had on my friend's representation.

Believing, as I do, that a man's life is largely shaped by his school surroundings, I had been very particular as to the kind of school I should choose. I can only say, in conclusion, that I am thoroughly satisfied with the work you are doing, that it is what I have desired—both as to discipline, instruction, and moral influence—and I have been very much gratified indeed in my son's development from every standpoint, and it is my expectation to continue him under your charge for another year.

Thanking you for your interest in him, and with my best wishes for the success of your institution, I am,

Very truly yours,

Dear Colonel Roller:—I wish to thank you for taking such good care of my son. I think he has improved in many ways, and he said he was anxious to return after Christmas and spoke so nicely of you and your school. I am very much pleased with his last report, which I have just received. I hope he will continue to do well in his studies and give you as little trouble as he has given me.

Wishing you and yours a happy and prosperous New Year,

My Dear Colonel Roller:—Your favor of the 15th inst. containing Floyd's last report adds another to the pleasures which his mother and I have found upon receipt of each of the monthly reports since he entered with you last September.

These records of steady progress, coupled with his excellent health and manly bearing at the time of his visit home during the December holidays, have confirmed in me the high regard formed for your Academy before entering my son with you. It was after considering the advantages of a large number of schools, that I selected your Academy because of its very healthful location, its reputation for refining influences, its excellent method in discipline for the development of character in young men and boys, and the high attainments of its officers as instructors.

I desire to thank you and your associates for the considerate attention received by my son and the pleasure which he has found in his "first year" work.

It will give me pleasure at all times to recommend the Augusta Military Academy to parents desiring for their sons a military school of the best type, and with personal regards, I remain,

Dear Sir:—I take pleasure in writing to say that I am more than pleased with the progress my son has made at your school.

Acting on the advice of a friend, who had sent a boy to you, I determined to make a trial of your school, and the result has been more satisfactory than I could

AUGUSTA MILITARY ACADEMY

have hoped. His ambition seems to have been aroused and his interest stimulated in his studies, and his loyalty and enthusiasm for his school gratifies me exceedingly.

I have visited your school and was very much impressed with the hygienic conditions which surround your school, and feel that they must be conducive to the healthfulness of your students. Being distant from any town removes the students from many temptations to which they would be otherwise subjected and thereby enables the students to apply themselves more closely to their studies.

The highest testimony I can give is that I expect to send my younger son to your school when he arrives at the proper age.

Yours very truly,

JAMES R. GILLIAM.

My Dear Sir:—I can not refrain from writing you to state how thoroughly satisfied I am with the progress my son has made at your school. Since he entered last fall, as one of your cadets, I have noticed the wonderful improvement he has made not only in his scholastic work but in his general deportment. I am also gratified in seeing the marked improvement in his health, and I feel that the training he is receiving will be the making of him physically.

I am so deeply interested in your school that I have recommended it to a large number of my friends, whose sons are now at the age to attend a boarding school.

Col. T. J. Roller and Maj. C. S. Roller,
Principals of Augusta Military Academy,
Fort Defiance, Va.

Gentlemen:—Before coming to the bar a number of years ago, I was engaged in educational work, being connected with a military boarding school. Consequently, I think that I am in a position to know what constitutes a good preparatory school for boys.

In the summer of 1911, I made a most careful investigation in regard to schools, as I was looking for a school for my own son.

After making this investigation, I determined to send my son to Augusta Military Academy for the following reasons:

1st. I believe that the men who have charge of the school are men of the very highest character and ability.

2d. I considered the location unsurpassed for beauty and health.

3d. I found that the school was not too large, and that each boy receives individual instruction, and comes in close touch day and night with the teachers.

These are some of the reasons which induced me to send my boy to Augusta Military Academy.

My son has never made a syllable of complaint about anything connected with the Academy.

He will return to Augusta Military Academy at the beginning of the session in September, 1912, and it is my purpose to have him remain with you until he is prepared for college.

Sincerely yours,
A. C. DAVIS.

My Dear Colonel:—I trust that my son, George, has arrived safely at the Augusta Military Academy after his visit with his mother and myself over Easter. I want to take this opportunity to thank you and your brother, Major C. S. Roller, Jr., for the care that you have taken of him during the past winter. When

AUGUSTA MILITARY ACADEMY

I was attempting to locate him in a preparatory school during last summer, I made a very thorough canvass of institutions which I thought would be suitable for a boy of his age. I am now satisfied that there is no place in the country which would have brought better results than have been obtained in your school. I admire the detail in your work and your endeavor to advance him in those studies wherein he was deficient. The healthful location of the Academy, coupled with the military discipline, has developed him physically in a marked degree. But, to my mind, the most valuable asset that you have is the moral tone of the school and the endeavor to develop honor in the character of a boy.

While he never lacked these qualities, yet he himself admires and has spoken to me about this feature. When I saw him at Easter, one of the requests he made of me was that he be permitted to return, saying that it was so homelike, and that his teachers were kind to and patient with him. My own personal visit to your institution demonstrated to me that the environments were all that could be desired.

Wishing you a full measure of success in the future, I remain, with kindest personal regards,

Yours very truly,
CURTIS H. GREGG.

UPPER MISSISSIPPI RIVER IMPROVEMENT

Col. T. J. Roller,
Maj. C. S. Roller,
Augusta Military Academy,
Fort Defiance, Va.

Dubuque, Iowa, January 19, 1914.

Gentlemen:—Mrs. Edwards and myself returned to Dubuque a few days ago after spending a most delightful month in the East.

We spent about three weeks in Washington and vicinity sightseeing, and Samuel, Jr., writes me he had "the time of his life."

In looking back over the trip, I must confess that above everything else looms up the days we spent with you at A. M. A. Turned loose, as we were, I presume you never had a visitor of quite as inquisitive a nature as the writer. And if there was anything I did not see, I do not know what it could be. Spending the days entirely with your boys, in the mess hall, their rooms, at drill, in school, at church, and at Y. M. C. A. exercises, I feel I am competent to express an opinion.

I knew on Samuel's return home after his first year that he had been at the right school, and under the proper influence. And since noting the devotion existing between teachers, and especially between you gentlemen and your pupils, I do not wonder at the fine, manly, upright nature of the cadets I mingled with.

AUGUSTA MILITARY ACADEMY

I am free to say that I should have considered it a calamity had I followed out my first intentions and sent him to the school first recommended to me before I knew of A. M. A. I have never been inspired quite as much by anything as seeing your boys enter the pretty, old stone church, or conducting the Y. M. C. A. meeting.

I am still smiling at your frank "out with it" when on leaving I told you I had investigated every corner of A. M. A. and had but one criticism to make, viz.: that you did not know how to lay concrete. I will, however, send you some literature on this and you, no doubt, will be able to do better.

Seriously speaking, gentlemen, I shall ever be grateful we sent our boy to A. M. A. And in extending to you a wish for a prosperous and Happy New Year, I beg to be remembered to your sister, Miss Roller, whose influence on the boys, in whom she takes so much interest, is not the least in making manly men out of them. I remain very sincerely and gratefully yours,

Messrs. T. J. and C. S. Roller, Jr., Principals,
Augusta Military Academy,
Fort Defiance, Va.

Gentlemen:—Your letter of March 31st received, enclosing February report as well as the examination report for the half-session. We are greatly gratified at the most satisfactory progress our son is making. Your school is located in a most healthful locality among a cultured people in the beautiful Shenandoah Valley. The location of your institution appeals to me strongly. Whilst not as large as many schools of a similar character, the educational advantages, in my judgment, are second to none, and the moral of your institution is certainly of the highest order.

The discipline incident to the military side of your school appeals to me with no little force, bespeaking, as it does, order, promptness, tidiness, self-reliance, and, last but not least, the building up of the physical side of the boy along with the mental. I feel that my boy's development along both lines just referred to has been all we could expect. I know of no school where I would rather have my boy than at yours.

Very truly yours,
E. M. GILKESON.

My Dear Col. Roller:—I have received the reports of the boys' examinations, and want to take this opportunity to express our satisfaction with and pleasure in the boys' progress during the year with you.

AUGUSTA MILITARY ACADEMY

I feel that they have made splendid progress in their studies, and I like the way you and the major take an interest in the boys themselves, and their athletic sports, thus developing them both mentally and physically.

The boys have enjoyed the year and are very loyal to the school and faculty, and are planning already to be with you next year; and we may also want to send our third boy another year, although still rather young to be away.

Thanking you for your many attentions to the boys, I am,

A. J. WELTON.

My Dear Colonel:—I wish to express to you my appreciation of the progress Archer has made in his studies, as shown by his examination report as well as by the monthly marks. My Dear Colonel Roller:—It is a privilege to tell you what I know about the school at Fort Defiance, and one I have really sought.

Four years ago when I left John, such a young lad, in your care, I had only the hope of what you might do. Now I know what has been accomplished. Through your persistent care he has become physically a new boy. That in itself would be a sufficient cause for satisfaction. He has also done well in his studies, but, best of all, he has come through his preparatory work with a single mind and clean hands. You don't have to teach ethics. The boys breathe in the wonderful spirit of the school as they breathe in the air. And it is the spirit that calls for right living. The boys do not realize it themselves now, but it will come to them in the later years. They may forget all the book facts of the curricula, but they will never forget the personalities of their educators.

So John is coming back for still another year before he graduates, and I trust when he does leave you to enter a wider field of study he may be a credit to the school to which he owes much.

Let me add a line of appreciation for your care of him through his recent critical illness. You were most thoughtful of his comfort and of my anxiety. He could not have had more tender care in his own home, and while it was too bad that he had to be ill nevertheless a few more links were forged in the golden chains that hold us both to Fort Defiance.

With the best wishes of the season to you and Major Roller, believe me,

Very sincerely yours,

(Mrs.) E. W. PAISLEY.

Dear Sirs:—Having lately received from you the report of my son for the first term of the session 1913-14, I take this occasion to express to you my thanks and appreciation for the high stand he has taken there, and it gives me pleasure to testify to the excellent advantages to be had at your school, and to the sterling qualities of the gentlemen who own and run it. I have had two sons at your Academy, and I have two others whom I expect to send there as they get ready.

I am partial to a military training—it is worth many times its cost—it matters not what line of business may be in view.

Yours truly,

ORVILLE NALLE.

Dear Colonel Roller:—I am delighted with Robert's reports, and his February finals are excellent.

I am much pleased with his advancement in every way, and think we have selected just the right place for mental, moral, physical, and religious welfare. He always speaks in the highest terms of every department.

We hope to return him to your attentive care another year.

Very respectfully,
R. G. ROBERTSON.

Dear Major Roller:—The report of my son, received yesterday, is more than satisfactory and very gratifying.

Your system of handling boys so as to get the best results is exactly what was needed in his case, and I am pleased that he is with you. His success so far is very gratifying, and I attribute it to your kind treatment.

My wife joins me in thanking you for your interest in him, and we wish for you and your school under your administration all success.

Very truly yours,
G. S. LEECH.

Colonel T. J. Roller,
Principal, Augusta Military Academy,
Fort Defiance, Va.

My dear Colonel Roller:—I take great pleasure in informing you that I feel gratified over the progress made by my sons, Luis and Alberto, during the years they have spent with you. I have kept a careful record of their reports and am glad to note the improvement, and beg that you please accept my sincere congratulations, due also to your able staff of assistants, for the good work accomplished in my sons' behalf.

AUGUSTA MILITARY ACADEMY

I certainly believe that the military training they are receiving has improved them in every way, especially in their physical appearance.

I do hope that deplorable conditions existing in unfortunate Mexico, will soon adjust themselves, that my financial affairs will enable me to keep my sons at your Academy, as both are happy and willing to finish their course.

It shall also be my purpose to strongly recommend your splendid institution and trust I may be the means of sending to you other students from Mexico.

Please accept my appreciation for the interest and kind treatment you have bestowed upon my sons.

Very sincerely yours,
EDWARD C. CUILTY.

Gentlemen:—After being an observer in your school for nearly three weeks the past winter, I wish to say that I am better satisfied than ever that the right school has been chosen for my two boys, who are now thirteen and fifteen.

They have gained a poise and self-reliance which they did not seem to attain in the public schools in my home city, although these schools are considered of high grade.

The two things that particularly struck me favorably were the high moral tone of your institution, and in your teaching boys what the word "obey" means.

AUGUSTA MILITARY ACADEMY

I find that my two boys have gained a different angle on life and improved in every way. I have often been asked why I sent my boys way down to Virginia. The reason was that I wanted them to get away from the city schools and to get into a place where a personal supervision would be given, and am greatly pleased that they are getting this attention in your school.

Closing with kindest regards to the Colonel, Major, and the Staff,

Yours sincerely,

JNO. A. STEPHENSON.

THE BOARD OF SCHOOL DIRECTORS of Caddo Parish

Shreveport, La., April 12, 1915.

The Augusta Military Academy in four years prepared me successfully to enter as a state student by examination the University of Virginia. Grateful for the excellent service rendered me, I had three of my brothers, two of my nephews, and many of my students to take their preliminary training in this school. My son, who is now enrolled as a student, is receiving the best of attention and is making satisfactory progress. The above is sufficient evidence of my estimate of the school.

Very truly,

C. E. BYRD.

Dear Sir:—I desire to express my sincere thanks for the kindness extended to my son, Robert, and your desire to have him fully prepared for his entrance into the Virginia Military Institute at Lexington, Va. He, as well as myself, fully appreciates the good you have done him, both in his studies and welfare.

I can fully vouch for the Augusta Military Academy, and will take great pains to do so, should opportunity occur.

Yours very truly,

My dear Col. Roller:—I am much pleased with Harold's February report; think it a little the best one he has gotten. I infer from no demerits showing on his reports that he is giving you no trouble. I sincerely hope that he will get through the entire session without any.

Yours very truly,

Dear Sir:—I am very much pleased with Lauve's reports for first term. I hope he will continue the good work. Your school seems to be the right place for him.

Thanking you all,

Very sincerely,

Dear Sirs:—I am delighted with your reports on Roswell and must write you a line to express my gratification. The first was very good and the second, received to-day, is better, but I don't know how he got that one demerit.

I must, as I thought, have struck the right school, for I see you are inspiring him to bring out the man that is in him, if he will help you bring him out.

With kind regards for yourself and the other gentlemen I met there, and with best wishes for the continued success of your school, I remain,

Very truly yours,

F. C. ROBBINS.
